Pat,

A letter approving your request for an extension of your client's General Notice Letter for the Scrub-a-Dubb Barrel Superfund Site will be routed for needed concurrences and approval by the EPA. The approval letter will be mailed to you after it is signed by Carl E. Edlund, P.E., Director, Superfund Division.

At this time I see no reason that your request will not be approved. Therefore, unless I advise you otherwise, please consider this email to be an approval of your request for an extension to your client's General Notice Letter for the CES Superfund Site. Total Petrochemicals & Refining USA, Inc. response will now be due May 27, 2015.

Amy:

Following up our telephone conversation of a few minutes ago, Total Petrochemicals & Refining USA, Inc. respectfully requests an additional thirty (30) days to respond to the General Notice Letter dated February 27, 2015. A thirty-day extension would make the new response deadline May 27, 2015.

Thank you for your consideration.

Pat Y. Spillman, Jr.
